

Andy's "Making Care Contagious" Video

THE WORKSHOP: The presentation draws heavily on Andy's experiences as a student leader in junior and senior high school and as a speaker traveling North America since 1992. He uses powerful stories, activity ideas, comedy and a high-energy style to give hands-on advice in an entertaining and informative manner. The central theme of this book & video program is to give young leaders the insight to effectively communicate their care and energy to the student body. Get your CARE, out THERE!

THE VIDEO can become a key part of your student leadership-training program. Use it during your summer planning meetings, fall start-up sessions, or mid-year motivation retreats. The 2 DVD set is almost 4 hours in length. It was filmed live with high school leaders in 2008.*

THE GUIDEBOOK: The book features a hard copy review of Andy's workshop program. It also contains additional content not found on the video, worksheets for photocopying, exercises, pep rally tips and debriefing guidelines that will keep the presentation insightful and enthusiastic. It is a fantastic reference for all leadership organizations! JOSTENS leadership programs proudly sponsor both the book and DVD.

THE AUDIENCE:

The workshop is appropriate for all student leaders in grades six through twelve. Groups that have used the program include student council, leadership class, athletic council, yearbook, teams, grad committee, peer helpers, anti-drinking & driving groups, music council, clubs, and service groups. It is also very appropriate for the advisors to these groups.
